

Lucintel Offers a Free Webinar

Global Commercial Aero Turbofan Engine Market, Supply Chain, and Opportunities: 2012–2017

Presented by

Lucintel's
Joseph Fritz

6th December, 2012

About Webinar Topic

Despite less-than-ideal economic conditions during the last five years, the global aero engine market grew moderately. The market is expected to experience a CAGR of 5% during the 2012-2017 timeframe. Various emerging trends, such as demand for aero engines that are lightweight, fuel efficient, and less harmful to the environment, are anticipated to drive market growth over the forecast period.

Agenda at a Glance

Webinar Title: Global Commercial Aero Turbofan Engine Market, Supply Chain, and Opportunities: 2012–2017

Speaker: Joseph Fritz

Company: Lucintel

Date: December 6, 2012

Time: 9:00 a.m. EST / 11:00 a.m. PST

Agenda

- Advancements related to the aero engine market, with focus on the use of advanced materials.
- Key questions covered will include next-generation narrow body aircraft with new engines, low-cost carriers, and demand for replacement engines, new technologies that reduce engine weight and emissions, including advanced materials.
- Questions and Answers

Estimated time: 30 minutes

Key Takeaways

Global Commercial Aero Turbofan Engine Market, Supply Chain, and Opportunities: 2012–2017

- Insights into plans by leading commercial carriers for use of turbofan aero engines

Speaker Details

Joseph Fritz

Lucintel Vice President, Research and Operations, Mr. Joseph Fritz has over 25 years of work experience in the aerospace, defense, energy, and automotive industries. Joseph has worked both domestically and internationally for several prestigious manufacturers. While at General Electric Aerospace, he worked on several defense initiatives, including the Trident II Fire Control System and the Phalanx Close-In Weapons System.

Benefits of this Webinar

- Obtain easy-to-implement strategies for lowering costs
- Learn about new developments in the aero engine market
- Discover new ways to leverage existing infrastructure for greater productivity
- Ensure your business strategy is on the right track to meet the future
- Value for money, thousands of dollars of research distilled in an event totaling a few hours

No travel cost. Learn directly from industry experts in a timely fashion

About Lucintel

Lucintel is a premier global market research and management consulting firm that creates your equation for growth, whether you need to understand market dynamics, identify new opportunities or increase your profitability. Lucintel's broad scope of services help you plan your growth, not only in the markets you should pursue, but also the technology and strategy required for success. For more than 14 years, our industry knowledge and expertise has helped thousands of clients create the equation for measurable results. Let us create a roadmap for you that meet your goals.

Our trusted data and analysis provides fact-based, actionable advice on all phases of market strategy and tactics. Combined with a worldwide perspective of various industries, we provide a plan to improve performance in a competitive marketplace. In the end, we save you time and money – enabling you to make wise decisions quickly for the success of your company and customers.

Lucintel, headquartered in Irving, Texas (USA), provides actionable results that deliver significant value and long-term growth to clients from various industries including aerospace, automotive, chemical, composites, construction, energy, marine, metal, mining, medical, sporting goods and technology. We have served thousands of clients, ranging from small, emerging organizations up to multi-national Fortune 500 companies in 70+ countries worldwide.

Lucintel has more than 200 multi-client market intelligence reports related to aerospace, construction, consumer goods, energy, marine, transportation, IT, telecommunication, media and entertainment, banking, healthcare and materials industries.

Market Reports	Consulting
 Aerospace & Defense	 Strategic Growth Consulting
 Transportation	 Benchmarking
 Chemical & Composite Materials	 Opportunity Screening
 Construction	 Partner Search and Evaluation
 Energy	 M & A Due Diligence
 Retail & Consumer Goods	 Market Entry Strategy
 Metal & Mining	
 Electrical & Electronics	

Registration Form and Procedure

This webinar provides a unique opportunity to learn the latest technological trends and highest profit opportunities within the aero engines marketplace. Through this webinar, you will be able to quickly take advantage of market opportunities in a quick and cost effective manner. To register, please provide your information in the form below and send to Lucintel. After registering, instructions will be provided on how to attend the webinar, and only a telephone and an Internet connection are required. After the presentation, five to 10 minutes will be provided for questions and answers regarding the information presented. To register, [click here](#) or email us on webinar@lucintel.com with the following information provided:

Name and Title: _____

Company Name: _____

Tel. & Email: _____

City/State/Country: _____
