

Strategic Growth Opportunities in Aerospace Wiring Harness Market

PRESENTED BY

Lucintel

DATE

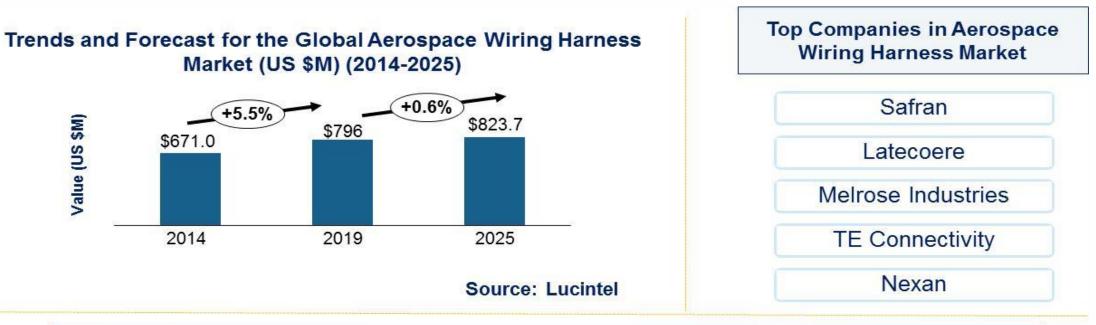

June, 2020

Market Intelligence + Growth Consulting + Opportunity Screening + M&A Due Diligence + Benchmarking = Your Company's Growth.

www.lucintel.com

Global Aerospace Wiring Harness Market is Expected to Reach \$823.7 Million by 2025 with a CAGR of 0.6%

Opportunities for Global Aerospace Wiring Harness by Aircraft, Application, and Market Type

Aircraft Type	Application Type	Market Type
 Commercial Aircraft Military Aircraft General Aviation Regional Aircraft Helicopters 	 Wing Fuselage Empennage Front Section Interior Engine 	 OEM Aftermarket

In This Market, Commercial Aircraft is the Largest Market by Aircraft Type, whereas Wing is Largest by Application

www.lucintel.com

In Terms of Region, North America Provides the Largest Opportunity for Aerospace Wiring Harness Market Followed by Europe and APAC

Ecosystem of the Global Aerospace Wiring Harness Market is Composed of Diverse Group of Companies

Increasing Aircraft Deliveries and Safety of Aircraft are Major Drivers in This Market

Increasing Aircraft Deliveries: The growth of the aerospace wiring harness market is also dependent on increasing production of aircraft.

Key Drivers

Important for Safety of Aircraft: Wring harness helps in reducing the threat of short circuit and fire which drives the demand of wiring harness.

Wiring Harnesses are Easy to Assemble: Wiring harnesses are important for aircraft because they can be installed as one unit instead of one wire at a time. It is much easier to build them on a table in a production area.

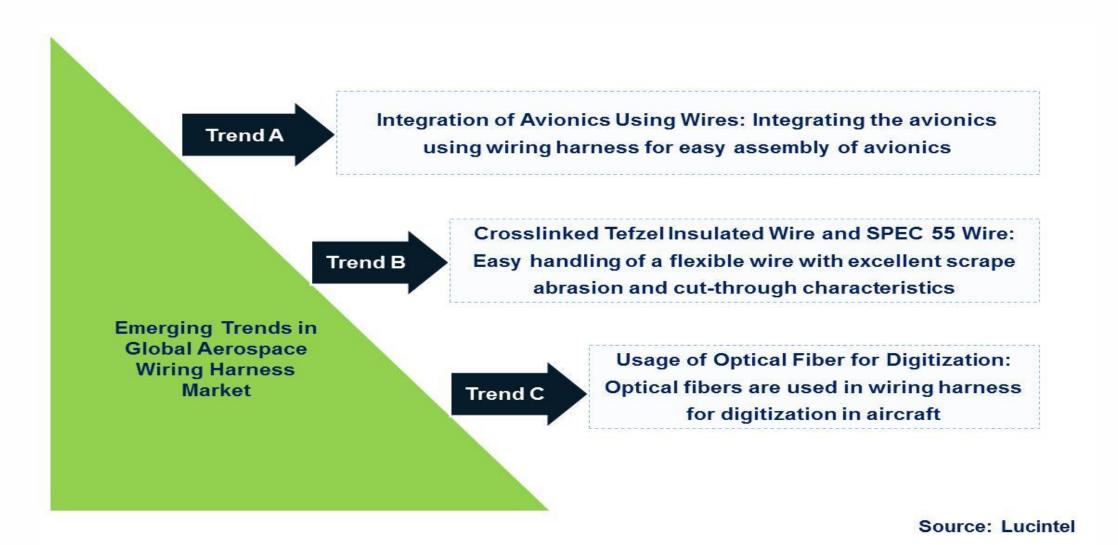

Rising Cost and Rapid Fluctuations in the Price of Input Materials: Rising material costs or rapid fluctuations reduce the gross margin and overall profitability and may reduce the R&D and further capital investment to increase avionics wiring harness production

COVID-19 Impact: Coronavirus (COVID-19) is having significant impact on businesses and the economy. Industry growth will witness negative impact in the year 2020 due to manufacturing lockdown, and labor shortage. It is expected that market will recover from the year 2021.

Integration of Avionics using Wires and Crosslinked Tefzel Insulated Wire and SPEC 55 Wire are Some of the Emerging Trend in the Global Aerospace Wiring Harness Market

7

Developing Capabilities in Crosslinked Insulated Wire Provides Strategic Growth Path

- Players of aerospace wiring harness market can focus to increase their capabilities to manufacture crosslinked tefzel insulated wire and SPEC 55 wire
- Increase in capabilities to match up with the product portfolio and a good customer base
- Investments to increase competencies in usage of optical fiber for digitization of systems such as touchscreen-oriented displays, and switches
- Research and development activities to develop the airline industry

Alliances / In-organic Expansions

Develop Capabilities

- Strategic collaborations / acquisitions to increase geographical presence in growing countries like Japan and China
- Collaborative activities to develop manufacturing processes for unique technically advanced products

Other Coverage in Report

- New Product Development
- Company Expansion
- Merger Acquisitions & JV
- Company Profiling

Market

Type

Note: These insights are based on recently launched Lucintel's Report on Global Aerospace Wiring Harness Market, which has 150+ Page and over 100+ charts and tables. Lucintel also offers 10% free customization on above report based on your needs.

Lucintel has an Extensive Toolkit to Address Strategic Questions

Key Questions

- Is market space / opportunity of current product offerings sufficiently robust?
- Market is focus for many: how can my company profitably differentiate?
- Based on our core skills, where should we focus?
- Should we build or buy? Is build even an option?
- What game changer actions exist and/or is a more incremental approach best?
- What is the order sequence of market entry segments / products?

Lucintel - At a Glance

- Premier management consulting and market research firm. Founded in 1998.
- Deep global insights into major industries. Team of over 120 analysts / consultants across globe
- Management comprised of PhDs, MBAs, and subject matter experts. Head quarter in Dallas, USA.

Conducted 500+ consulting projects across industries for 3M, Audi, Dupont, Carlyle, GE, etc.

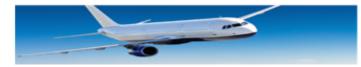

Why Lucintel

Trusted insights: Reliable insights. Widely cited in Wall Street Journal, Financial Times, Forbes, etc.

Clients we serve: Over 1000 clients from 70 countries – Fortune 500 companies

Strategic advice: Over 20 years of proven global strategic management consulting experience
